MemComb Sprint 2

Bassam Thomas
Danny Naum
Chris Stidham
Scott O'Neil
Nathan Hyde
David Michon
Jacob Couveau

Landing Page UI
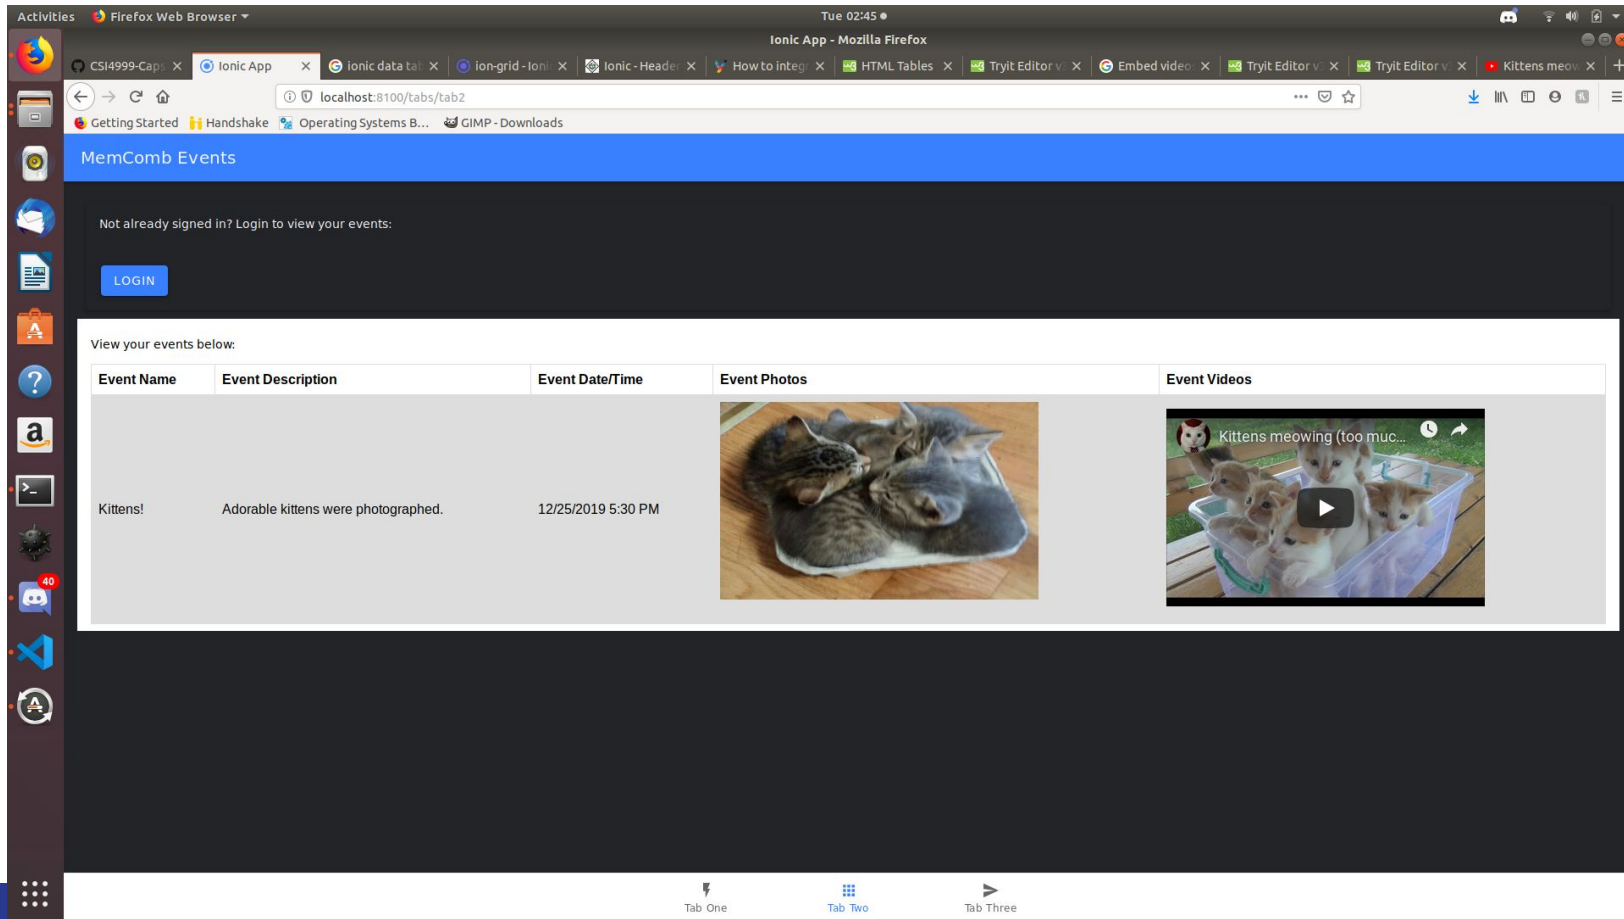

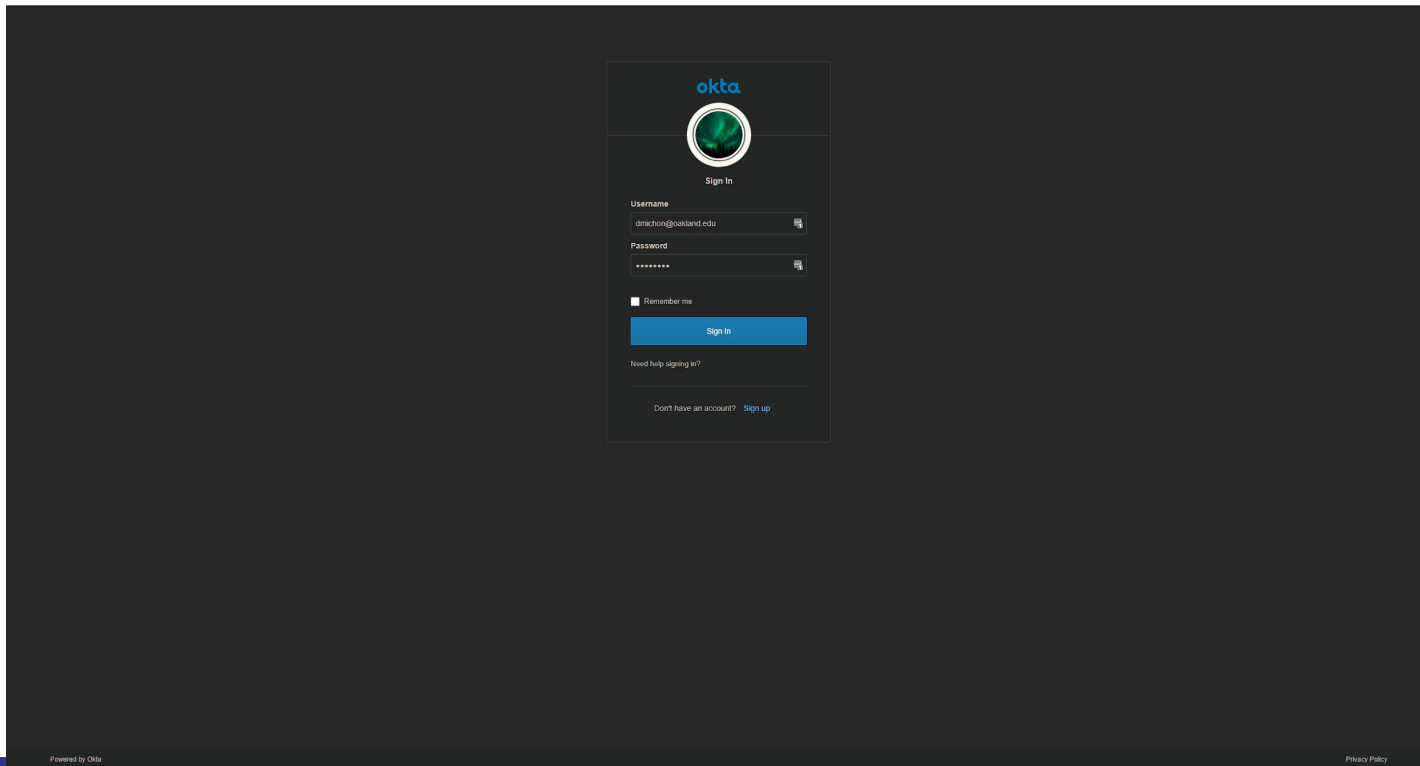

Events Page UI

Risks and Challenges

- Integrating the database
- Keeping the app from throwing errors when trying to run it on different machines
- Making the app scalable for the desktop and app versions
- Implementing the events that will store the audio/video/text files
- Connecting different users based on similar stored items

Login Page UI

- Unable to change login page UI unless paid to host custom URL and domain

Camera Integration (Desktop)

Camera Integration (Android)

Looking Forward

Next Sprints goals:

- Full camera integration
  - As a user, I can use a physical Android phone to take pictures
  - As a user, I can see a gallery of the photos taken
- Events Database
  - Creation of Database
  - Linking to Okta sign-in ID
- Finish UI for Account Details
